

Academic Performance Electives Honors Program

Please fill in all fields highlighted in light blue (as a student). The lecturers will confirm the corresponding services in the light grey fields.

The subject matter and scope of the examination(s) to be completed are determined by your lecturers. Since the Honors Program is a certificate program, there is no need for a separate, formal registration for the examination at a central location/BASIS. Please contact your lecturers regarding your participation in the examination. Examinations for the Honors Program are generally graded as "passed" or "failed".
